

Their "hostages" come out healthy and well-dressed...and our prisoners are tortured and broken

Amad/ Written by Hassan Asfour/ After a force from the Jewish fascist army managed to recover 4 hostages, at the expense of executing more than 274 Palestinians from the Nuseirat camp, pictures of Noa Argmani topped the Hebrew and foreign media scene, and she appeared at the peak of her health and elegance, and the Palestinian media artist Lama Tatour wrote about her from inside the 48, the historical homeland, on Instagram, commenting: "Is this what a kidnapped woman looks like? Her eyebrows are tidier than mine, her hair, her nails, is this why innocent people should be killed?" Words that she paid for by being fired from working on a Hebrew channel serving the occupation project. Tatour, described very accurately, without any deviation from the truth, which the whole world saw, on Hebrew websites, as she spoke in a live broadcast with the president of the racist entity with all joy and happiness, pictures came out, and she was not part of an "exchange" operation so that it could be said that it "happened before the exit", but rather came in the context of one of the largest terrorist operations recorded in human history, killing and injuring nearly a thousand Palestinians in exchange for 4 hostages. That same girl, spoke about the conditions of detention, and also in their Hebrew and foreign media, as she would go out from time to time to the market "or the remains of a market", wandering among the ruins of the camp, seeing its people and its residents, without indicating a single word about any torture or harm to her, neither physical nor verbal, and the world will not forget the image of that female hostage who came out as she bid farewell to her guard, a farewell to a "friend and lover", and it was global news. In contrast, dozens of the sons of the Gaza Strip who were kidnapped by the

occupying enemy army came out of prison and captivity, carrying on their bodies all the traces of fascist torture, with some permanent disabilities, fractures, cuts and physical disfigurement, and an abnormal psychological state as a result of the daily torture campaigns, scenes that the entire world sees, and even scenes of hundreds of them being stripped during their arrest, were published by Western media outlets, including American ones, with special reports about a prison that was opened near the American base in the Negev region, described as the most criminal prison in humanity, surpassing all the prisons of the old fascism, still holding thousands of kidnapped people without informing any state body, to put their families. The two scenes should not remain news and end with the matter, in a story that summarizes very densely the political reality between a people seeking freedom who treat those who have a hostage or prisoner not according to what is stipulated in the law, but according to what is stipulated in the Palestinian national consciousness, pure humanity out of respect for the name of the homeland, while the contemporary fascist state practices everything available through means of torture that it believes will break the spirit of the Palestinian, despite all the years of failure that its criminal behavior has gone through. Scenes of images between "hostages" who were in Gaza and were released in exchange or by executing hundreds of Palestinians in Nuseirat, in exchange for scenes of prisoners who were released from the prisons and detention centers of the enemy state, accompanied by very brief words, can become a soft power to expose the state of contemporary fascism in behavior, culture and awareness, in exchange for the .Palestinian under death and destruction

It has become the duty of the Palestinian officialdom, despite all its general absence in the struggle, and its forgetting of its

character and role, to recruit all its media and institutions to serve the "scenes for scenes" campaign to be an added weapon .to the weapon of national truth in pursuing the fascist enemy

Scenes of "enemy hostages in exchange for Palestinian prisoners" must be at the forefront of all conferences and activities to pursue Jewish fascism..and demonstrations in .support of the national right

Note: It is suspicious that the media of the head of the snake "formerly America" is focusing on the person of Sinwar..between strange leaks and the even stranger statements of the Jewish Zionist Minister Blinken..statements as if they are a prelude to committing a war crime that is .knocking on the door...so beware of their contempt

Special note: The "Gaza duo" responded to an old proposal by the enemy state and said that they are ready to negotiate it.. So what is the need for Resolution 2537 that they cheered about? Is the original "negotiation" going to be a Security Council resolution or the Jews' proposal? Frankly, what happened was very, very intense political stupidity. And !remember
